WARRANTY
t's & c's apply

Choosing the correct thermostat is crucial to ensuring that your heating system works optimally and cost-efficiently. Warmup's programmable and non-programmable thermostats will provide you and your home with an optimum heating experience as they are easy to use, quick to install and can help you save money on your energy bills.

Our Range

Model W3WT01

W3WT01

W3WT01 Black

Dimensions: 115 (h) x 84 (w) x 40mm (d)

This Colour Touch, programmable thermostat allows users to easily program their heating requirements, thus reducing their energy usage and in turn, their heating bills.

Features:

- Built-in clock/calendar with battery backup.
- Includes 4 and 6 event program for automatic comfort and setback temperature.
- Up to 7 different program combinations can be created.
- The Energy use function uses data to calculate electricity consumption and the cost of heating over a given period.
- For individual control or heating zone control.

Model W3WT02 (with WiFi Technology)

W3WT02

W3WT02 Black

Dimensions: 115 (h) x 84 (w) x 40mm (d)

This Colour Touch programmable thermostat includes WiFi capability and allows users to control their heating via a user-friendly app giving them easy access to full control.

Features:

- Built-in clock/calendar with battery backup.
- Includes 4 and 6 event program for automatic comfort and setback temperature.
- Up to 7 different program combinations can be created.
- The Energy use function uses data to calculate electricity consumption and the cost of heating over a given period.
- For individual control or heating zone control.
- Remote access and control via the user-friendly app.
- Simple set-up with an installation wizard.

Models W3MTC-1991-WU & W3MTC-1999UCH

(Floor & Air sensing)

W3MTC-1991-WU &
W3MTC-1999UCH

Dimensions: 115 (h) x 84 (w) x 50mm (d)

This is a basic On/Off thermostat providing reliable service to those who prefer straightforward control. It is designed to be flush mounted in a standard wall socket.

Features:

- Remote floor sensor designed to meet the standard requirements for comfort, safety and energy saving.
- Locking mechanism behind the control knob to limit the amount of adjustment possible.
- The perfect solution for budget-conscious users.
