Choosing the correct thermostat is crucial to ensuring that your heating system works optimally and cost-effectively. Warmup's sleek thermostats ensure that your home is always at the perfect temperature, making energy swings effortless and adding a touch of modern convenience to your home.

Programmable models

Models W3WT01 and W3WT05 allow users to easily program their heating requirements, thus reducing the energy usage and in turn, their heating bills. Choose the model that best fits your lifestyle from the simple yet powerful W3WT01 to the advanced, voice-controlled W3WT05

Models **W3WT01 and W3WT01 Black** are electronic thermostats with a temperature control via a sensor placed either externally in the floor or built into the thermostat.

Features:

- Built-in clock/calendar with battery backup
- Includes 4 & 6 event program for automatic comfort and setback temperature
- Upto 7 different program combinations can be created
- Energy use - The Energy use function uses data to calculate electricity consumption and the cost of heating over a given period
- Can be installed horizontally

Models W3WT05 and W3WT05 Black are designed to provide optimal comfort, energy efficiency and seamless control for your heating.

- Voice control compatible with Amazon Alexa and with Google Assistant-enabled devices
- Full app control of heating zones, individual thermostat heating schedules and heating modes
- Built-in WiFi ensuring trouble-free commissioning
- Built-in clock/calendar with battery backup
- Includes 4 and 6 event programs for automatic comfort and setback temperature
- Upto 7 different program combinations can be created
- Support of multi-user access

Models
W3WT05 & W3WT05 Black
115h x 84w x 40d mm

Programmable Dual Touch Models - W3M90 and W3M90 Black

The W3M90 and W3M90 Black are modern flush-mounting thermostats with a large stylish display designed to control your electric underfloor heating system and an extra appliance (towel rail or mirror demister) from the same thermostat.

Features:

- Large display
- Dual relay - Underfloor heating + an independent appliance (towel rail or mirror demister)
- Three modes: Program, Manual and Vacation modes
- Open window detection - Auto suspends heating on rapid temperature drop
- Flexible sensors - Built-in, floor only or combined sensor modes
- WiFi App Control - Remote control via Tuya Smart app
- Child Lock - Screen lock with 3-second override.

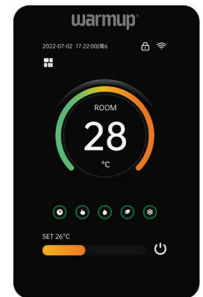

Models
W3WT01 & W3WT01 Black
132h x 84w x 14d mm

Programmable Colour Touch Models - W3F90 and W3F90 Black

The W3F90 and W3F90 Black are premium WiFi enabled touchscreen thermostats designed for electric and underfloor heating systems. These thermostat models offer flexible temperature control, programmable schedules, energy saving features and Smart life connectivity.

Features:

- 4.3" Colour touchscreen with touch button operation
- Power-down Memory - Settings saved through power outages
- Temperature Correction function - Calibrates the displayed temperature against a reference with a range of -6°C to +6°C
- Multiple Control Modes - Room or floor sensor control
- Programming Mode - Weekday and weekend schedules
- One Click Eco Mode - Instant energy saving at 16°C default
- WiFi App Control - Remote control via Smart Life app
- Child Lock - Screen lock with 5-second override

Models
W3F90 & W3F90 Black
132h x 84w x 14d mm

Non-programmable Models - W3MTC-1991-WU (Floor sensing) & W3MTC-1999UCH (Air sensing)

The W3MTC-1991-WU and W3MTC-1999UCH provide simple, reliable control of your Warmup underfloor heating system. With an easy-to-use dial, it allows you to set and maintain your desired temperature without complicated programming.

Features:

- Model W3MTC-1991-WU has a remote floor sensor which is designed to meet the standard requirements for comfort, safety and energy saving
- Locking mechanism behind the control knob limits the amount of adjustment possible.
- The perfect solution for budget-conscious users
- Model MTC-1999UCH has an air sensor.
